The mission of the Larimer County Open Lands Program is to preserve and protect significant open space, natural areas, wildlife habitat, and develop parks and trails for present and future generations. These open lands provide opportunities for leisure, human renewal and protection of our natural and cultural resources.

1) CALL TO ORDER

2) PUBLIC COMMENT

A citizen from the Cedar Cove area said the Horns’ only sold two of their three shares of water rights to pump water out of the river. He said if the share is not going to be paid for, they can start foreclosure on it. Charlie Johnson said it did not show up on the title commitment. He will look into it.

3) AGENDA REVIEW – no changes

4) REVIEW AND APPROVAL OF LAST MEETING MINUTES

The Board unanimously approved the minutes from April 23, 2015 and May 28, 2015 as submitted in this month’s packet.

5) INFORMATION & ANNOUNCEMENTS

Kerri introduced two new faces at the table. Zach Schierl, a seasonal with our education and volunteer program has been a tremendous asset to Heather and Pam! Zach shared that he is new to the area. His background is science education and interpretation. He has worked for the National Park Service. He teaches Astronomy and Geology at Aims in Greeley. Alex Fischer is an intern ranger working with the Red Mountain District. He moved here from California 3 years ago for the Recreation and Tourism degree at CSU. He loves it so far. The Board and staff introduced themselves.

a. Get Outdoors Day was a huge success on June 13. An estimated 2,000 people participated in 34 activities at Fort Collins City Park. The highlight was a 17’ python crawling around the park, allowing kids to crawl all over it. Kudos to Heather Young and Pam Mayhew for leading the effort.

b. Three new board members have been appointed, starting in July. Pete Kelly is a development/realtor/community connection; David Marvin is retired and volunteers for the department as a Naturalist and an informal liaison to the Ag Advisor Board, Jason Brothers, a water engineer.
c. Kerri attended the GOCO Inspire Summit on June 11 that launched the GOCO Inspire Initiative, a 25 million dollar funded effort. It stems off of the results of our Plug into Nature study in 2012. The three tenets are Places, Programs and Pathways. Request for Proposals are due by the end of August, looking for projects that work to solve the barriers of getting youth in the outdoors. She also spoke on the Keep it Colorado panel.

d. Meegan – Recall that we are partnering with City of Fort Collins, CSU and the USDA on putting bison on a combined pasture on Red Mountain and Soapstone. One thing to prepare is removing existing fencing. Larimer County led an 80-person volunteer fence removal project, taking down 6 miles of fence to make way for the bison coming November 1! The fence we are putting up will have posts that are more frequent. There will also be an emergency response plan for bison getting out or others getting in.

e. Jeffrey - We are entering into an IGA with Greeley to design and manage the Poudre River restoration project at Lions Open Space. In return for doing that, we will be able to utilize FEMA and CWCB funds to make repairs, prevent future trail damage and improve wildlife habitat and river health.

f. The Big Thompson Recreation and Conservation Assessment final/adoption draft will be available soon. Staff will seek OLAB recommendation to the Board of County Commissioners for adoption of the plan at the July meeting.

g. The grant application to GOCO for the Red Feather Lakes Community Library project is recommended for funding. The GOCO board will vote on 6/18.

h. Report from the Open Space Operations Managers – no questions

i. Sales Tax Report from prior month – no questions

j. A date has been chosen for the Green CE Tour. The appointment will come out this week.

6) PRESENTATION

a. Honor Peter Kast and Ladonna Lee for their OLAB service

    Peter Kast has served on the Board for four 3-year terms over the past 13 years, almost always as Chair. Kerri and Gary thanked Peter and presented him with a framed photo of Devil’s Backbone. Ladonna Lee’s term has also ended, and a photo gift of Red Mountain Open Space will be delivered to her.

7) DISCUSSION & UPDATES

a. Presentation on smoking ordinance expanding to outdoor areas (parks, trails, playgrounds) - Jan Moraczewski, Health Educator

    Jan Moraczewski presented to the Board on expanding a smoking ordinance to outdoor areas (parks, trails, playgrounds, etc.) The presentation and Issue Brief are attached to these minutes.

    Gary provided a summary of staff concerns: Regulations already exist for fire and littering and our rangers report that most of the smoking occurs at the trailheads and parking lots. The problem is not as great in the rural areas as it is within city limit natural areas. None of the open spaces throughout Colorado has adopted this. The department would rather watch Fort Collins for a year and review resulting costs.

    The Board discussed the issue in depth, with mixed opinion and many questions. What are the regulations in Colorado’s federal parks and monuments? If the ordinance is inevitable, why not start now? Would it include smoking marijuana? Why set up an enforcement parameter if there isn’t a great need for it? Are people not complaining (about smoking on the open spaces) because they don’t see any point since it is allowed? Is there any urgency? Would it include campgrounds? Would it be confusing between Larimer County reservoir parks, Larimer County open spaces, Lory State Park and city natural areas? (There are always multiple jurisdiction conflicts.)

    The Board will gather more information via discussions with other municipalities, Lory State Park and federal parks in coming months. Travis will ask the rangers to pay closer attention to this subject on their patrols to see if there is more smoking out there than initially thought.
b. Future administrative offices location – Introduction and process overview
Kerri presented an introduction to the topic of a new department administration building (attached to these minutes.) Based on many criteria, several potential sites were reviewed and ultimately we hired a contractor to complete site assessments (attached to these minutes) for two potential sites that met the majority of the criteria: Fossil Creek Reservoir Regional Open Space and Long View Farm. The board discussed bird migration and nesting at Fossil Creek and ideas for mitigation if needed.

c. Regional Trail project updates
Jeffrey Boring provided an update on the Regional Trail projects. Recall we applied for four grants, two for the Colorado Front Range Trail and two for the Long View Corridor Trail. Larimer County and Partners Go 4/4 on Grant Requests and we received every cent we asked for!

- Colorado Front Range Trail
  - North Front Range MPO: $450,000
  - Colorado Parks and Wildlife: $350,000

- Long View Corridor Trail
  - CDOT: $1,000,000
  - GOCO: $999,550

The Board applauded the success! These two projects are 5 million dollars and 2.8 million of it is coming from partners outside of Larimer County (Federal and State.) Jeffrey and the Board discussed various components of the trails.

8) ACTION ITEMS

a. Regional trail budget adjustments

<table>
<thead>
<tr>
<th>Larimer County’s Share</th>
<th>September, 2014</th>
<th>May, 2015</th>
<th>Today</th>
</tr>
</thead>
<tbody>
<tr>
<td>Colorado Front Range Trail</td>
<td>$500,000</td>
<td>$220,000</td>
<td>$289,442</td>
</tr>
<tr>
<td>Long View Corridor Trail</td>
<td>$400,000</td>
<td>$400,000</td>
<td>$479,463</td>
</tr>
<tr>
<td>Total</td>
<td>$900,000</td>
<td>$620,000</td>
<td>$768,905</td>
</tr>
<tr>
<td>Request from Cash Flow</td>
<td></td>
<td></td>
<td>$148,905</td>
</tr>
</tbody>
</table>

The original estimation for the Larimer County portion of the projects was $900,000. Actual numbers came in much lower at $620,000 but has now gone back up a bit due to some unexpected costs in working with federal grant dollars.

Motion by Gerry Horak, no second, to approve shifting funds between the Colorado Front Range and Long View Corridor Trail budgets and moving $148,905 of funding back into the regional trail budget. Motion carried unanimously.

b. Horn Final Review - fee acquisition in the Big Thompson Canyon
Charlie Johnson explained that the property was destroyed by the flood. Pre-flood values are not considered as they included homes and property that is gone. The County Assessor has appraised the property at $3,500. Charlie worked up a price of $10,500 based on the recreational value of the portion of the river that touches the property. This property will not be paid for with Open Space funds, but rather with Community Development Block Grant funds which is administered by HUD, as part of buy-out program for properties that are designated as unbuildable since the 2013 flood.

Motion by Mary Banken that we recommend the purchase of the Horn property to the Board of County Commissioners. Second by Paul Alaback. Motion carried unanimously.

c. Historic Assessment phase II
Historic Assessment Report – Meegan presented phase 1 results again of a Historic Structures Assessment for structures located on our properties. Of the 21 structures located at Red Mountain, Devil’s Backbone, Horsetooth Mountain and Hermit Park, 15 warrant further investigation. At a per building basis, doing the minimum amount of investigating to make further decisions, phase 2 will
cost $43,170. Since the buildings do not qualify for the historic register, that funding source is not available. Other partnerships may be possible if we decide to restore select buildings. Travis mentioned that the ranger Districts receive lots of questions, comments and emails about buildings on our properties so likes to see this project moving forward. Motion by Paul Alaback that we recommend the funds for phase 2 of a Historic Assessment Report on 15 buildings. Second by Ward Nelson. Motion carried unanimously.

d. Cascade Cottages at RMNP (Park) partnership request from Rocky Mountain Conservancy

Following up from last months presentation, Kerri reminded the Board that the Rocky Mountain Conservancy is raising funds to purchase the largest remaining in holding within the park. This in holding has been in the Park since it was formed in 1915. Given the special nature of the property, its unique situation in the Park as one of the last commercial operations, largest in holding and in celebrating RMNP’s centennial anniversary, they asked the Board for a partnership-funding request of $100,000. Staff is recommending $50,000. The Board discussed how they could come up with the other $50,000 and decided on a challenge grant. Motion by Trudy Haines that we make a recommendation to the Board of Commissioners to give $50,000 to Rocky Mountain Conservancy, contingent on the Estes Valley Land Trust and the Town of Estes Park raising $50,000 for the project. Second by Carl Sorrentino. Motion carried unanimously.

e. Open Lands Advisory Board By-laws amendment

The Board discussed the removal of the word cultural from the Department Mission statement, the Board Purpose/Section IV.A./program mission statement including something about managing for the natural values to be as good as they can be to the program mission during its’ next revision, the Board Purpose/Section IV.B. needing to include promoting public understanding and appreciation of open spaces (the education piece), the reasoning behind including the County vision statement and department mission statement and clarification around voting by email or attending meetings via telephone. Staff reported that the County Attorney strongly discouraged voting by email because any discussion should be open to the public.

The Board decided to adopt this draft of the minutes with the text suggested by Paul Alaback added to Section IV.B. The Board further decided another amendment is necessary to clarify attending by telephone in Section VIII.F. It was agreed staff will work with the County Attorney on this issue and bring a new draft of bylaws back to the Board.

Motion by Suzan Fritchel that we adopt the bylaws as amended and presented tonight along with Paul’s additional language for Section II, B. Motion carried unanimously.

f. Election of officers – tabled to July

9) Nancy Wallace moved that we move into Executive Session pursuant to C.R.S. 24-6-402 (4)(a) for discussion regarding the purchase, acquisition, lease, transfer, or sale of any real, personal, or other property interest.

10) ADJOURN – Regular meeting ended at 7:40 p.m.
Smoke-free trails
Larimer County Natural Resources Proposal

Tobacco Free Larimer County
- Who we are
- What we do
- Why it's important

City of Fort Collins Smoke-free Parks & Trail Policy
- Passed 2/15/14
- Implementation 9/1/15
- Includes facilities such as playgrounds, shelters, ball fields
- Includes other City property

Support from the Public
- Fort Collins (random mailed surveys, park users survey, youth survey) – 78-79% support
- Health District of Northern Larimer County 2013 Survey - 73% support
- 66 Counties have smoke-free trails

Why is Outdoor Tobacco Use a Problem?
- Tobacco Litter
- Fires
- Youth Tobacco Use
- Secondhand Smoke

Implementation of Smoke-free Trails Policy
- Education
- Signage
- Enforcement

Would you support a smoke-free trails policy?
- Other additions to policy?
- Ideas?
- Questions?
- Concerns?
Smoke-Free Trails

Why is Outdoor Tobacco Use a Problem?

City of Fort Collins smoke-free parks and trails policy
(Passed Feb. 15, Implementation Sept. 15, 2015)
In County Open spaces that abut City Natural Areas, users may be confused by City/County rules, and not know where boundaries of City properties/smoke-free zones begin and end. Examples:
- Devil’s Backbone/Coyote Ridge
- Soapstone/Red Mountain

Youth Tobacco Issues
Healthy recreation activities and events provide an opportunity to change the community norms that influence youth.
- Youth perceive what is acceptable and what they ought to do from what they understand as “normal” behavior within their community.
- Young people consistently overestimate the number of people who use tobacco and may believe that regular tobacco use is the norm.
- When healthier behaviors are witnessed and smoke-free areas become the norm, tobacco use goes down and youth perception of tobacco use becomes more accurate.

Tobacco Litter
Cigarette butts contain environmental toxins and can be poisonous to small children or animals if consumed.  
- Smoke-free areas often reduce litter, improve the appearance of local parks and reduce the parks system’s clean up costs.
- A study of Minnesota parks found 58% of park directors reported cleaner park areas, with less litter observed, following the implementation of a smoke-free policy.

Fires
Billions of cigarettes are discarded outdoors each year. In 2004, states began requiring cigarettes to be more self-extinguishing, so less prone to cause fires. Though less fire-prone cigarettes and a national reduction in tobacco use helped to decrease in the number of cigarette-caused wildfires, there is still cause for concern.
- Communities such as CO Springs (after the Black Forest fire) instituted a citywide smoke-free parks and trails policy to safeguard city property from potential fire damage.
- The CO Springs City Council opted for creating smoke-free parks and trails, with provisions for areas as parking lots, which don’t run as much risk of fire danger.

Secondhand Smoke
In areas where people gather for recreation/healthy activity, tobacco smoke can be an unexpected nuisance and a hazard for persons with chronic diseases. A 2013 Colorado Tobacco Attitudes and Behavior study found that more than half (58%) of those surveyed reported “putting up with someone smoking around them,” as the biggest annoyance experienced in public parks.
Public Support for Smoke-free Areas

Fort Collins Random Mail Survey
October 2013 (over 2,100 responses)
Residents were asked level of support for smoke-free regulations in the following areas: playgrounds, bleachers/seating, park shelters, athletic fields/courts, trails

79% of persons who responded to a random Fort Collins mail survey support smoke-free rules in parks, trails, and playgrounds

Fort Collins Park Users Surveys
Between May 2014 and October 2014 the City conducted the two surveys to get feedback from park users on smoke-free rules in public areas/events in Fort Collins:
- Park user surveys in Rolland Moore, Spring Creek Canyon, and Lee Martinez Parks (195 responses)
- Persons who rented park shelters in Fort Collins during Summer 2014 (127 responses)

78% of persons surveyed at Fort Collins parks support smoke-free rules in parks, trails, and playgrounds

Fort Collins High Schools Survey
Youth Tobacco Survey - (224 local high school students)

78% of youth surveyed in local youth Tobacco Survey support smoke-free playgrounds and parks

What Are Possible Options?

- ALL Larimer County open-space trails could become smoke-free (with NO designated smoking areas)
- ALL Larimer County open-space trails could become smoke-free (but ALLOW smoking in parking lots)
- ONLY Larimer County open-space trails that abut City-owned Natural Area trails could become smoke-free
- Additional outreach, signage, prevention tools could be used to address high use tobacco behaviors in certain recreation areas

Current Administrative Office Use and Occupants
- Director
- Senior Managers
- Admin & Acct staff
- Open Lands staff
- Visitor Reception
- Large meeting room for department meetings
- Small conference room
- Kitchen and lunchroom

Process to date
- Facilitated staff discussion – March & April 2014
  - Evaluation of existing facilities
  - Current locations and uses
  - Future growth and needs

Important Attributes
- Centrally located facility as primary public information center and meeting space
  - Maintain satellite offices at Horsetooth, Blue Mountain and Hermit Park
- Incorporate a nature center component with access to trails
- Technology delivery is critical

OLAB Meeting Minutes - June 25, 2015
Locations Considered

- Purchase new lands
  - Expensive, access to trails somewhat difficult
- Use existing lands
  - Looked from Landfill to The Ranch and everything in between
  - Landed on Long View OS or Fossil Creek
- Communicating with Partners

Site Assessment

- Assumptions
  - House 25-35 staff
  - 15,000 – 30,000sf, possibly phased for growth
  - Include a walk-out basement and storage for education programming purposes
  - Energy efficient, but not LEED certified
  - Garage area for 4-5 vehicles, no “shop”
  - Minimize view impacts to and from the building

Long View Farm OS

Fossil Creek Reservoir

Next Steps

- Continue discussions with Fort Collins, OLAB, internal
- Potentially proceed with full feasibility study and schematic design and cost estimations this year

OLAB Meeting Minutes - June 25, 2015
The following Site Assessment Report has been prepared for a proposed Larimer County Natural Resources Visitor and Education Center. Two sites, the Long View Farm Open Space and the Fossil Creek Reservoir Natural Area properties, are included in this site assessment evaluation.

The site assessment for both sites includes: Development of a project narrative with Open Lands staff and the project team; Assessment of existing documentation provided by Larimer County; Site assessment of existing conditions, opportunities and constraints; Evaluation of other opportunities and constraints as they relate to the project; Documentation of Larimer County Assessor’s information for each parcel; an Outline of the entitlement processing and approval process required to build; and photographs of existing conditions.

Project Narrative
The Larimer County Natural Resources Department is in need of a Visitor and Education Center building. The facility will include 20,000-30,000 sf office space for 20-30 staff, surface parking and a maintenance garage for 4-5 vehicles. The office structure should accommodate multi-purpose, educational meeting space with media capabilities. The facility should include a basement with storage space and room for office expansion. Energy efficiency is desired, but LEED certification is not to be pursued. A site specific building design should be developed to blend and integrate into the selected site and to minimize view impacts of the building from other public places.

Existing Documentation
The Long View Farm Open Space is located west of Highway 287, east of the railroad tracks, south of Highway 392, and north of the Long View Office Park. Access to the property will likely be from North Franklin Avenue within Long View Office Park, just south of the property. The site is zoned FA and FA1 in Larimer County Commissioners. The site parcel number is 96230-00-901. The site is jointly owned by Larimer County, City of Fort Collins, and City of Loveland. The site is undeveloped, and as such, no existing documents or survey data are available for this property. The site is currently being used for dry wheat land farming. A Resource Management Plan is in place for the Long View Farm property. The property is comprised of three parcels totaling 598.5 acres. The three land owners partnered with Great Outdoors Colorado when the property was acquired. The property was acquired to preserve the rural agricultural character of the corridor between Fort Collins and Loveland.

The Fossil Creek Reservoir Natural Area is located north of highway 392, south of the reservoir, and west of Interstate 25 in Fort Collins, Colorado. Access to the site will be maintained off highway 392 across from Eagle Ranch Road. The land is within City of Fort Collins and is zoned Public Open Lands (POL). The site parcel number is B616000902. The site is jointly owned by County of Larimer and City of Fort Collins per an Intergovernmental Agreement. The property contains an existing Ranger Station, parking area, trails, wildlife viewing blinds, pier, shaded seating areas, and outdoor classroom, entry sign, and Fossil Creek Reservoir. The existing facility improvements were made prior to the site being annexed into City of Fort Collins. Plans and site data are available from the prior improvements made in 2004. The ¼ mile resource management buffer from Fossil Creek Reservoir is to be maintained.
Site Assessments / Site Opportunities and Constraints

Specific site assessment criteria, site opportunities and constraints for both sites are presented in a site assessment matrix as Exhibit A. A numerical scoring system was used to rate each property on a four point scale from 0 to 3, with 0 representing a major constraint, 1 representing a minor constraint, 2 representing an opportunity and 3 representing a major opportunity. A total score is tabulated for each site. Based on this evaluation and scored rating system, the Fossil Creek Reservoir Natural Area is better suited for the Visitor and Education Center facility.

<td>Multiple land owners (2) with interest in the property.</td>
<td>3</td>
</tr>
<tr>
<td>Zoning / Permitted Uses</td>
<td>Public facilities are allowed in FA or FA1 zone districts. FA zone minimum lot size is 0.5 acres. FA1 minimum lot size is 2.50 acres. Zoning is required.</td>
<td>3</td>
<td>Employment is a type II review in the ICL zone district. There is no minimum or maximum lot size. The property is zoned.</td>
<td>2</td>
</tr>
<tr>
<td>Utilitarian / Plotting</td>
<td>All require plotting, entitlement processing. Within Larimer County.</td>
<td>3</td>
<td>Plotting is already complete. Entitlement process within City of Fort Collins.</td>
<td>3</td>
</tr>
<tr>
<td>Environmental Impact</td>
<td>Conservation easement amendment necessary.</td>
<td>1</td>
<td>1/4 mile resource management buffer from Fossil Creek.</td>
<td>2</td>
</tr>
<tr>
<td>Abandoned Ground Utilities</td>
<td>Electric on poles along Highway 287</td>
<td>1</td>
<td>No above ground utilities.</td>
<td>3</td>
</tr>
<tr>
<td>Underground Utilities</td>
<td>Utility connectivity available at intersection of I-25 South and W. 71st Street.</td>
<td>1</td>
<td>Power/water lines will likely need to be upgraded. Vehicular traffic transmission lines cross the site. Storm sewer service</td>
<td>1</td>
</tr>
<tr>
<td>Proximity to Neighbors</td>
<td>Industrial uses south of the site; future Ring Spur Shopping Center to the north at Copperleaf.</td>
<td>1</td>
<td>Commercial development to the east. Residential uses to the south across Cooperline and north across the irrigation treatment plant to the west.</td>
<td>3</td>
</tr>
<tr>
<td>Sound / Smell</td>
<td>Noise concerns: Air Inspection SG.</td>
<td>3</td>
<td>No concerns for sounds or smells from entitlement uses.</td>
<td>3</td>
</tr>
<tr>
<td>Nighttime Views</td>
<td>Value of plastics expansion - (Day 2 + 4)</td>
<td>3</td>
<td>No night time view.</td>
<td>3</td>
</tr>
<tr>
<td>Positive Views</td>
<td>West-facing mountain views.</td>
<td>3</td>
<td>Northern views to Fossil Creek Reservoir. Natural.</td>
<td>3</td>

<tr>
<td>Site Adjacency - Body of Water</td>
<td>Small pond east of site; vegetation quality poor.</td>
<td>3</td>
<td>Adjacent to Fossil Creek Reservoir.</td>
<td>3</td>
</tr>
<tr>
<td>Visibility of Future Building Structure</td>
<td>The truth and the property would result in the structure being located close to off-site industrial buildings and having a minimal impact from a view perspective with the exception of views to the edge from Shields.</td>
<td>2</td>
<td>The area below the ridge and immediately west of the existing structures would have a minimal impact from a view perspective for an off-site user and from across the reservoir, the structure could be punctuated from view from I-25.</td>
<td>2</td>
</tr>
<tr>
<td>Access to Site / R.O.W. Dedication</td>
<td>Existing access from north Franklin Avenue within Long View Office Park, just south of the property. Internal access under permit developed.</td>
<td>3</td>
<td>Existing access and parking from Highway 292 across from Eagle Ranch Estates. How can one see 292 anticipated / R.O.W. dedication/coor. Eastbound left turn out will likely be challenging.</td>
<td>1</td>
</tr>
<tr>
<td>Heavy Vehicle Traffic</td>
<td>Property immediately west of Highway 287, no buffering by vegetation or landscaping. Site south from Highway 292.</td>
<td>2</td>
<td>Site immediately north of Highway 292, but not buffered by topography and setback from roadway.</td>
<td>2</td>
</tr>
<tr>
<td>Regional Rail System Proximity</td>
<td>None on-site. Connection to Laramie River Station is 1 mile south of the site. Rail extension along standby extend to the west of the property. Rail connection would need to cross the railroad tracks.</td>
<td>2</td>
<td>A new railway will be built in the south side of the property along CDOT (this segment does not currently connect to the Fort Collins or Laramie regional rail system). Connection to rail access is 1.1 mile west of I-25.</td>
<td>2</td>
</tr>
<tr>
<td>On-Site Rail</td>
<td>None.</td>
<td>0</td>
<td>Paved and oil surface lots exist on this site.</td>
<td>3</td>
</tr>
<tr>
<td>Proximity to Other Natural Areas / Wildlife Corridors</td>
<td>Potential for wildlife access across shelves to Coyote Ridge.</td>
<td>2</td>
<td>Adjacent to Fossil Creek and Laramie River Natural Area in the west and Long View Office Park to the north.</td>
