

Emergency Medical Plan

Included in this packet is step-by-step information for volunteers and participants to follow in the event of emergency and key contact information. All rest stop volunteers will have forms to capture any necessary information should they witness an accident or medical issue.

Please be aware all notifications regarding course updates or weather-related information will be sent via text message to all participants and volunteers.

Venus de Miles Event Day Contact: Deirdre Moynihan 303-931-6455

Medical Director: Robert Montoya 303-917-5465

Event Hotline/Additional Rest Stop Supplies: 551-25-VENUS or 551-258-3687

Medical/Safety Emergency for Volunteers or Riders: Call 911!

IN THE EVENT OF AN EMERGENCY CALL 911, reference Venus de Miles and the specific location and nature of emergency and proceed to following the below steps.

NON-EMERGENCY PLAN: In the event a rider or volunteer needs basic medical attention please follow these steps.

Step 1: Call Medical Director: Robert Montoya 303-917-5465

Step 2: Call Event Director: Deirdre Moynihan 303-931-6455

*If needed call event hotline with medical/safety questions: 551-258-3687

1. If the situation is an emergency and after you have called 911 dispatch, notify medical staff by cell phone with the following information:
 - i. State your first and last name and bib number
 - ii. Location of victim (mile marker, intersection, distance before or after aid station)
 - iii. Describe the situation –Gender, General Age, Status of Victim
 - iv. Stay on sight until Venus de Miles Medical staff arrives
2. Walking-wounded (Class 3). (Road rash, sprained ankle, musculoskeletal injury)...Contact medical staff and expect that on course/roving unit will evaluation.

3. Unable to walk (Class 2). Respiratory distress, disoriented, heat illness, fatigue)... **CALL 911 FIRST THEN RADIO/CALL FOR MEDICAL. Expect ambulance dispatch and transport. Monitor Airway, Breathing, Circulation and vitals until ambulance arrival. All race staff MUST STAY OFF RACE RADIO UNTIL MEDICAL STAFF RESPONDS!!!!**
4. Unconscious, collapsed, bleeding heavily, obvious deformity, cyclist ejected from bike, seizures, etc. (Class 1)...**CALL 911 FIRST THEN RADIO/CALL FOR MEDICAL. Expect ambulance dispatch and transport. Monitor Airway, Breathing, Circulation and vitals until ambulance arrival. All race staff MUST STAY OFF RACE RADIO UNTIL MEDICAL STAFF RESPONDS!!!!**
5. Go to victim with radio/phone. Help medical staff/ambulance find victim
6. Advise medical tent when medical staff arrives (so we may confirm victim has been located and is being evaluated)
7. Advise medical tent of **name/bib number of victim if patient is transported away from race venue to initiate emergency contact**
8. **All witnesses must report to medical tent upon returning to finish venue.**

Examples:

- “Attention medical director, this is _____ at aid station _____. We have report of an older female conscious but sitting on the course right after the intersection of _____ and _____ streets.
- Sara, this is _____ from the medical tent. We are sending on course medical staff to your location. Please find the victim and take the radio/phone with you and remain on the line.
- Medical Tent, this on course medical staff _____. We copy that location and are en-route. Our ETA is _____-minutes
- Medical Tent, this is on course medical staff. We have found the female and are evaluating. We will advise status.

INCLEMENT WEATHER PLAN: All weather updates will be communicated via text message on safe spot locations for riders. All participants should use their best judgment and seek immediate shelter and plan to evacuate the course if needed. SAG vehicles will sweep the course and pick-up riders as needed. All riders should communicate their location via text or by calling the hot line.
